No. CE 741133

Product Specification

Product Type: Filtering half masks to protect against particles.

Models: WL-2030 (without valve)

Product description: The particulate respirators are designed to protect against solid and non-volatile

liquid particles. The masks are held on the face by a pair of elasticated head straps. These models are moulded cup shape design, single shift devices (denoted by the

classification symbol NR).

Technical specifications: EN 149:2001+A1:2009 – Respiratory Protective Devices. Filtering half masks to

protect against particles.

EN 149 Classification Model Classification

WL-2030 (without valve) FFP1 NR WL-2030 (without valve) FFP2 NR

Product Specification(continued)

Product Type: Filtering half masks to protect against particles.

Models: WL-2031 (with valve)

Product description: The particulate respirators are designed to protect against solid and non-volatile

liquid particles. The masks are held on the face by a pair of elasticated head straps. These models are moulded cup shape design, single shift devices (denoted by the classification symbol NR) and have the Dolomite Clogging option (denoted by the

classification symbol D).
